Introduction

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

The 1st House

The 1st House cusp is, in most cases, the Ascendant or Rising Sign of your chart. It indicates your primary motivation in life and describes you, your self-expression and vitality. It is your physical appearance and the way others see you and interact with you. The house placement of your 1st House ruler shows the areas of life that are of primary importance to you. Also, planets in your 1st House influence how you present yourself to the world.

Ascendant in Capricorn

Your primary motivation in life is to gain secure material circumstances and to acquire possessions. You are a serious person with a strong sense of reality. You have great self-control and self-discipline but can also be too controlled and lack spontaneity. Success in life comes to you through hard work and concentration upon an objective. Essentially a pragmatist, you will put duty and responsibility before your heart's inclinations.

1st House Cusp Ruler, Saturn, in 7th House

You realize your primary motivation in life through associating with other people. You need to interact with others in order to define your own role and direction in life. Partnerships, either personal or professional, are central to your advancement in life.

Pluto in 1st House

You display a strong presence and an intense personality. You have an instinct for other people's strengths and weaknesses, which you can use to your advantage. You may undergo several transformations during the course of life. On occasion, you can be dictatorial and domineering.

Pluto in Aquarius

You are a member of a generation that will bring about sweeping social changes and reforms. You may become passionately involved with groups or societies that propose revolution. Major breakthroughs in science and technology occur while Pluto is in this sign - for good and otherwise.

Pluto Trine Sun (6z39' A)

You are motivated by the desire for power, which you can harness at will and put to good use. Possessing natural leadership and organizational abilities, you are usually able to persuade others to follow your lead. You are a determined person who usually manages to get your own way through will-power and a belief in oneself. At certain junctures in your life, you may feel the pressure to transform and re-invent yourself by taking on new identities after old ones have served their purpose.

Pluto Square Moon (6z50' S)

You have a complex emotional life. Your feelings are intense and you feel things deeply. The dynamics of your personal relationships are intricate and often strained, especially with your family or significant females. There are power struggles in the home or with dominant women. Equally, you can be domineering or emotionally manipulative and intent on getting everything your own way. You can also be prone to particular habitual fixations or compulsions. Difficulties with others can arise through jealousy.

Pluto Trine Venus (3z50' S)

In love, you are prepared to make a total commitment and you expect the same in return. You tend to feel that you and your partner are meant for each other and no one else. Problems can arise in love through jealousy or possessiveness.

Pluto Opposition Saturn (7z31' A)

Everything you achieve in life is as the result of sheer determination and effort. In reality, nothing of lasting value comes to you without hard work and sacrifice. You have great powers of endurance and perseverance, coupled with a tenacious attitude and the self-discipline to see things through to their successful conclusion. You have the power to perform at the highest level but only after you have served an appropriate apprenticeship. Other people acknowledge your authority and expertise in a particular field, when they can see you've earned it. Separations or losses can be experienced at certain junctures in life.

Pluto Sextile Neptune (1z34' S)

Neptune and Pluto are the solar system's slowest moving planets; consequently, aspects between them last for a great number of years and their effects are more collective than personal. Since 1940 and continuing until about 2040 they are in sextile aspect to each other. The major effect of this is to accentuate spiritual awareness and development en masse. You are part of a generation that is intent on exploring and refining the inner aspect of life and consciousness itself. You will be aware of a universal interest in metaphysical subjects, clairvoyance and psychical research.

Ascendant Trine Moon (1z30' A)

You have natural empathy, coupled with an ability to make others feel at ease in your company. You enjoy good relations with others because you are generally easy-going, obliging and able to adapt to most situations. Women play an important role in your life and you have many contacts with them.

You have a pleasant and friendly personality that other people find attractive. You possess physical appeal, a charming nature and a good fashion sense. You may have artistic talents; you will certainly have an appreciation of the arts and culture. You have good taste and an eye for style and design. Negatively, you can be vain, superficial and inclined to foster contacts with the 'right' people to advance your own interests.

Ascendant Square Neptune (6z54' S)

This particular aspect is often found in the charts of creative individuals, such as artists, actors and musicians or people who are highly attuned to the inner or spiritual aspects of life. Neptune Opposition Sun (5z06' A)

You are highly sensitive and impressionable. You have a tendency to be easily swayed by others and are prone to seducing influences and stimulants. While you may be inspired with the best of intentions and ideals, you often lack the power and motivation to bring them to realization. Equally, you may be prone to recycling periods of low vitality and physical weakness. There is a susceptibility to self-deception and seducing influences that can lead to undermining activity. Positively, you may have spiritual inclinations. Your inner life is very active and psychic experiences are familiar to you. You have compassion and an ability to understand the needs of others with sympathy and empathy. You may be gifted with a measure of inspiration and creativity, which may express itself through the arts - especially music, painting, photography or drama.

Neptune Opposition Venus (5z24' S)

You possess good taste, refinement and artistic appreciation or talent. You have a keen sense of beauty, coupled with creative imagination and inspiration. You may develop a talent for music, dance, drama, poetry, painting or photography. Emotionally, you are highly romantic and sensitive and inclined to dream and wish for the ideal in love. In regard to matters of the heart, you are idealistic but can be unrealistic and susceptible to seducing influences. There is a danger of poor judgement in love, emotional disappointment and difficulties in relationships caused through deception.

There can be a proneness to bouts of nervous tension, anxiety and mental stress.

Uranus Conjunct Saturn (5z59' S)

This aspect happens only once every 46 years due to the slow orbital speeds of these two planets. Socially, it represents periods of disruption in the world and the sudden tearing down of established structures: consider, for example, the resulting breakup of the Soviet Union following the most recent conjunction of Saturn and Uranus in 1988. On a personal level, you often feel tense and churned up inside, as you struggle between the urge to conform and the urge to assert your individuality. The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

42% Cardinal

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

25% Fixed

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

33% Mutable

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

The Elements

8% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are out-going and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive, demonstrative, bold and courageous. They can also be impatient and bossy, wilful and reactive, especially when they face delays or obstructions in their path.

25% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hard-working and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

33% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more pro-active and self-determining you are:

The Air signs go for freedom of action and freedom of movement. Air signs need to be able to come and go at will. They are mentally alert and intellectually stimulating. They can also be fickle, inattentive and swayed by the opinions of others.

34% Water

The Water signs are Cancer, Scorpio & Pisces. The more planets you have in the Water signs the more needful you are of emotional security:

People with a majority of planets in the Water signs are motivated by the need to gain security in their emotional lives. They are sensitive, deep, compassionate, imaginative and intuitive. Their inner lives and dream lives are very active. They are spiritually inclined and potentially psychic, with an ability to tune into others.
