## **Introduction**

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

We trust you will find the report insightful and helpful.

## The 1st House

*The 1st House cusp is, in most cases, the Ascendant or Rising Sign of your chart. It indicates your primary motivation in life and describes you, your self-expression and vitality. It is your physical appearance and the way others see you and interact with you. The house placement of your 1st House ruler shows the areas of life that are of primary importance to you. Also, planets in your 1st House influence how you present yourself to the world.*

### **Ascendant in Scorpio**

Your primary motivation in life is to feel emotionally secure. You have an intense and magnetic personality capable of exercising a fascination over others. Aware of your power, you know how to use it, but can abuse it. When meeting new people, you tend to be initially guarded and wary. Acutely intuitive, you can sense the mood of any environment. You have strong survival instincts and will fight for what you believe.

### **1st House Cusp Ruler, Mars, in 6th House**

You realize your primary motivation in life through developing and expressing useful skills. You are well-suited to being of service to others and have a proper appreciation of work. Your job may be connected with the health or service sectors.

### **Ascendant Trine Sun (3° 15' S)**

You project an aura of confidence and self-assurance that announces to the world "I know who I am and what I'm worth". You have a strong desire to become important or to gain esteem in life. Other people respond to the sheer warmth, vibrancy and power of your personality.

### **Ascendant Sextile Moon (6° 55' A)**

You have natural empathy, coupled with an ability to make others feel at ease in your company. You enjoy good relations with others because you are generally easy-going, obliging and able to adapt to most situations. Women play an important role in your life and you have many contacts with them.

### **Ascendant Square Venus (7° 46' A)**

You have a pleasant and friendly personality that other people find attractive. You possess physical appeal, a charming nature and a good fashion sense. You may have artistic talents; you will certainly have an appreciation of the arts and culture. You have good taste and an eye for style and design. Negatively, you can be vain, superficial and inclined to foster contacts with the 'right' people to advance your own interests.

### **Ascendant Opposition Mars (4° 59' S)**

A strong character, you express an assertive and, occasionally, forceful personality towards others. Your manner is direct and frank. You are ambitious for recognition and achieve successes through your own efforts and self-motivation. You are a good organizer and like being in charge of situations. Giving orders or instructions to others comes naturally to you. You face life's

battles head-on and are rarely daunted by much at all. Negatively, you can be pushy, argumentative and prepared to resort to bullying tactics to get your own way. Also, a tendency to rush into things without considering the consequences can place you in awkward situations. Patience isn't one of your strongest attributes.

### **Ascendant Sextile Saturn (4° 33' S)**

You present a responsible face to the world and other people know they can rely on you. You learn from experience and gladly pass on what you know to those who will benefit from it. A hard worker, you like to see concrete results for your efforts and don't mind putting up with short-term pains for long-term gains.

### **Ascendant Opposition Pluto (2° 50' S)**

You have great will-power, which you can direct into projects of personal interest, however, you will need to learn how to work with others if you want their cooperation. Others perceive you as a person who can be coercive and controlling. You are intense and dominating and, as a consequence, often find yourself involved in power struggles. In extreme cases, you can come across as dictatorial and, if you feel your authority is threatened, can resort to ruthless or oppressive behaviour. Alternatively, other people - especially partners - can wield power over you.

Friendships are the most important unions you make in life. You hold contemporary views on love-relationships and people are attracted to you because you keep yourself up to date. Conventional and routine relationships don't really interest you. Instead, you thrive on variety and intellectual stimulation in love.

### **Venus Opposition Jupiter (1° 45' A)**

Even the 'difficult' aspects, such as this, between Venus and Jupiter are not as challenging as other planetary combinations. There can be a tendency towards laziness or over-indulgence and wastefulness. To some extent, life's advantages can come too easily to you, resulting in a tendency to take things for granted. Still, this can be an advantageous aspect to have in your chart because it brings social and worldly benefits and facilitates successful relationships with others. Romantic encounters are generally positive and happy and artistic ability is evident. Positively, you have a pleasant and affectionate nature, which warms people to you easily. You have an attractive personality with the ability to gain popularity or favouritism from others.
