## **Introduction**

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

## The 1st House

*The 1st House cusp is, in most cases, the Ascendant or Rising Sign of your chart. It indicates your primary motivation in life and describes you, your self-expression and vitality. It is your physical appearance and the way others see you and interact with you. The house placement of your 1st House ruler shows the areas of life that are of primary importance to you. Also, planets in your 1st House influence how you present yourself to the world.*

### **Ascendant in Libra**

Your primary motivation in life is for freedom of action and movement. You display an attractive personality, with the ability to get along with others. You are co-operative, diplomatic and a natural mediator, with the capability to appreciate differing points of view. Sociable and engaging, you are generally popular and well liked. You need company and prefer to associate with cultured, refined and creative people. You have an aesthetic sense and an appreciation of the arts, coupled with a preference for harmonious and tastefully arranged environments.

### **1st House Cusp Ruler, Venus, in 5th House**

You realize your primary motivation in life through expressing your creativity. You may be involved with the entertainment sectors, theatre or sports. Love affairs and sex are important to you.

### **Mars in 1st House**

You are bold, combative and impatient by nature. You can tend to act first and think later, or jump to conclusions too quickly. Not content with just watching life from the side-lines, you need to have direct experiences. Equally, you can be headstrong and inconsiderate; wanting things your own way or not at all. Physically, you should enjoy good stamina and body strength. However, with your tendency to impulsiveness, there may be accidents and injuries.

### **Mars in Libra**

You have the urge to associate with others and to be socially active. Always preferring peace to discord, you dislike arguments between people and will try to restore harmony. You have an ability to see both sides of an issue, which can inhibit your ability to act effectively. As you are uncomfortable with conflict and aggression, you can fail to take decisive action when it's needed.

### **Mars Sextile Mercury (0z56' A)**

You have an alert and agile mind, with the ability to think quickly and decisively. Direct in your communications with others, you know how to be convincing and how to press a point. You have the ability to think for yourself and to put your own ideas into action.

### **Mars Trine Venus (3z00' S)**

You enjoy social activity, demonstrate a lively and outgoing personality and are generally relaxed in company. Artistic talent is highly likely, particularly creative expressions requiring physical or technical ability, such as dance, drama, ceramics or sculpture.

### **Mars Square Saturn (1z33' A)**

This particular combination of planets is challenging to say the least. The enthusiastic and adventure seeking nature of Mars is in conflict with the obstructive and restraining tendencies of Saturn. Positively, Saturn can tone down Mars' impatience and encourage disciplined action, the attainment of goals through concentrated or sustained effort and persistence. At times, progress in life can seem

frustratingly slow; it sometimes feels as if you are 'driving with the hand brake on'. Negatively, you may find it difficult to manage anger and irritability. There is a risk of adopting a harsh outlook or of becoming resentful, vengeful and bitter. At approximately seven-year intervals, you may be forced to contend with restrictions and periods of low physical energy.

### **Mars Opposition Neptune (2z43' A)**

The main challenge of this aspect is to discover how to channel your energies most effectively. This is difficult because Neptune tends to undermine Mars' ability to act by dissipating its power or causing it to express itself in a misguided way. Physically, the body's defences can be weakened causing a susceptibility to infections and viruses. On a more uplifting note, this aspect is often found in the charts of spiritual aspirants who direct their energies towards the higher good. For creative people, there can be talents in music, visual arts, theatre, film, photography or fashion. Physical exercise such as swimming and water sports may appeal to you.

### **Ascendant Sextile Uranus (0z56' A)**

Variety is the spice of life as far as you are concerned. You do not like being stuck in any situation or place for very long; consequently you will have many changes of environment and acquaintances.
