The 1st House

The 1st House cusp is, in most cases, the Ascendant or Rising Sign of your chart. It indicates your primary motivation in life and describes you, your self-expression and vitality. It is your physical appearance and the way others see you and interact with you. The house placement of your 1st House ruler shows the areas of life that are of primary importance to you. Also, planets in your 1st House influence how you present yourself to the world.

Ascendant in Aries

Your primary motivation is to attain power and recognition in life. You are straightforward, direct and have an energetic and active personality. You are assertive, self-reliant and self-motivated but also quick-tempered, aggressive and uncooperative if others get in your way. While you have natural leadership qualities, you can lack foresight and follow-through. You must always be busy.

1st House Cusp Ruler, Mars, in 7th House

You realize your primary motivation in life through associating with other people. You need to interact with others in order to define your own role and direction in life. Partnerships, either personal or professional, are central to your advancement in life.

Ascendant Opposition Sun (5z35' A)

You have a strong desire to become important or to gain esteem in life. You have a knack for attracting important well-known or famous people. You may tend to overwhelm other people with the power of your personality and display pride and attention seeking tendencies. Difficulties may be experienced in your relations with others caused by arrogance.

Ascendant Opposition Mars (4z29' A)

A strong character, you express an assertive and, occasionally, forceful personality towards others. Your manner is direct and frank. You are ambitious for recognition and achieve successes through your own efforts and self-motivation. You are a good organizer and like being in charge of situations. Giving orders or instructions to others comes naturally to you. You face life's battles head-on and are rarely daunted by much at all. Negatively, you can be pushy, argumentative and prepared to resort to bullying tactics to get your own way. Also, a tendency to rush into things without considering the consequences can place you in awkward situations. Patience isn't one of your strongest attributes.

Ascendant Sextile Jupiter (1z03' S)

Without even really trying, you make a good impression on others and are usually favoured in life. You have an outgoing and positive personality, which others find appealing. Broad-minded and enthusiastic, you have an eagerness for knowledge and travel.

Ascendant Sextile Neptune (5z03' A)

You have an active imagination and are easily inspired and may show great talent in any of the creative fields - especially music, theatre and writing. You instinctively tune into others and seem to understand their needs without them saying a word.

You are naturally careful, with good self-control and self-discipline. Cyclically, life may be difficult, with hardships or limitations to overcome. Yet, you have the power to achieve positions of prominence and responsibility in life through hard work and perseverance. At times, you can be given to bouts of discontentment.

Saturn in Taurus

You have a desire for secure material circumstances. Inherently practical, you possess self-control and the capability to work hard. You are usually reliable and trustworthy in business or professional areas but you can also be too conservative. You have a strong will but can be inflexible and stubborn. The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.
